

■ actionschool.in is LIVE | Version 1.3.0 deployed | English-only mode active

1. What Changed in This Update

Version 1.3.0 removes the bilingual English / Malayalam (EN/ML) language toggle from the Action School website. The site now operates in English only. This simplifies the codebase, reduces page weight, and eliminates a UI element that was no longer required for the current stage of the project.

Version	1.3.0
Release Date	June 2026
Type	Feature removal — no breaking changes to remaining functionality
Deployed at	https://actionschool.in
Repository	github.com/Yadukrishnan117/action-school-website
Branch	main

2. What Was Removed

The following elements have been fully stripped from the codebase. Nothing was deleted by accident — every item below was intentionally part of the language toggle feature and is no longer needed.

File	What Was Removed
index.html	Language toggle button (<button id="lang-toggle">) removed from nav bar. All data-ml="..." attributes stripped. All data-en="..." attributes stripped. Noto Sans Malayalam removed from Google Fonts import URL.
script.js	applyLanguage() function removed. currentLang state variable removed. langToggle and langLabel DOM references removed. Form submit handler simplified to English-only messages.
style.css	'Noto Sans Malayalam' removed from the root font-family stack.

3. What Was NOT Changed

The rest of the website is untouched. Every feature that existed in v1.2.0 continues to work exactly as before.

Hero video & sound toggle	Working — no changes
Mobile nav / hamburger menu	Working — no changes
Card shuffle animation (About)	Working — no changes
Scroll reveal animations	Working — no changes
Kerala SVG map (Aero-Parks)	Working — no changes
Gallery videos	Working — no changes
Enquiry form	Working — simplified to English-only success messages
All 6 security headers	In place — v1.2.0 hardening fully retained
robots.txt / security.txt / .gitignore	In place — no changes
HTTPS / SSL certificate	Active — auto-managed by GitHub Pages

4. Post-Deploy Test Results

A functional test was run across all major site sections after the v1.3.0 changes were applied. All checks passed.

Check	Result
Site loads at https://actionschool.in	PASS
HTTPS padlock visible — SSL active	PASS
Language toggle button no longer visible in nav	PASS
All English text displays correctly on every section	PASS
Hero video plays and sound toggle works	PASS
Mobile hamburger nav opens and closes correctly	PASS
About section card shuffle animation runs	PASS
Activities section cards display correctly	PASS
Gallery videos load and play	PASS
Enquiry form submits and shows English success message	PASS
Kerala SVG map displays all three city markers	PASS
Footer links scroll to correct sections	PASS
No Malayalam characters appear anywhere on the page	PASS
No console errors in browser developer tools	PASS
Security headers still present (CSP, HSTS, X-Frame-Options etc.)	PASS
robots.txt accessible at https://actionschool.in/robots.txt	PASS
security.txt accessible at https://actionschool.in/.well-known/security.txt	PASS

5. Version History Summary
